Dirty is undoubtedly flying on the right of way of the Oregon Electric south of Eugene now, as 10 large carloads of steel rails passed through here this morning southward bound. The construction train crew declare that many more carloads will be hauled south this week, and that the work on the southern end of the line is progressing rapidly.

Don Capid evidently lost his stride last month, there being just one marriage license lacking to equal his good work of October, which was 56. In compiling his reports, County Clerk Allen finds that 55 licenses were issued during the month of November, which, according to previous records for the same period, is a slight increase.

**GERMANY TELLS RUSSIA TO KEEP HANDS OFF**

[UNITED PRESS LEASED WIRE.]  
Berlin, Dec. 2.—Open warning to Russia to keep "hands off" in Austria's dispute with Serbia over an Albanian port on the Adriatic sea was voiced here today in the Reichstag by Chancellor Von Bethmann-Hollweg. "If Austria's rights and interests," he said, "are not respected, or if a third power attacks Austria, or if Germany's own position in the future is endangered, we will fight."

## Harriman Merger Is Dissolved

UNITED STATES SUPREME COURT DECIDES CASE BEGUN IN 1907—AND HOLDS MERGER IS CONTRARY TO THE LAW.

[UNITED PRESS LEASED WIRE.]  
Washington, Dec. 2.—The United States supreme court ordered today the immediate dissolution of the Harriman merger of the Union Pacific and Southern Pacific railroads.

The government started its suit in 1907, and the supreme court's decision today sustains every one of the government's contentions. The combination, the court ruled, is doing business in violation of the Sherman anti-trust law.

The plea of the railroad attorneys, asking invocation of the "rule of the reason" to the merger was refused by the court, it being held that the defendants "unreasonably" restrained trade.

The ownership of 45 per cent of all the Southern Pacific stock by the Harriman interests was declared illegal, and sharply disapproved by the court. The Harriman interests in the Santa Fe and Salt Lake railroads also was held to be illegal.

The decision of the court was unanimous, Justice Vandever not participating.

The Utah circuit court was directed to take charge of the dissolution, and a presentation of its plans to the supreme court within three months was ordered.

## Abandons Sea Takes to the Air

[UNITED PRESS LEASED WIRE.]  
London, Dec. 2.—Reports that India is giving 12 warships, according to the Berlin correspondent of the Daily Express, is responsible for the remarkable proposal of Germany, abandoning her effort to control the sea for an attempt to win supremacy of the air. The National Zeitung proposes a fleet of 100 Zeppelins, divided into squadrons of four each, which, while the cost is only as much as one dreadnought, could eventually destroy England's fleet.

The proposal is endorsed enthusiastically throughout Germany, where, as each airship is said to be able to carry a vast quantity of explosives, it is believed that the Fatherland, ruling the air, will eventually conquer the sea.

## Pathetic Plea Made by Woman

[UNITED PRESS LEASED WIRE.]  
Los Angeles, Cal., Dec. 2.—Refusing to apply for probation, Mrs. Amy Snyder, 46 years old, convicted recently of stealing \$55 in a lodging house, where she was employed as chambermaid, appealed to Judge Conley today to eloquently that the court attach and spectators were moved to tears.

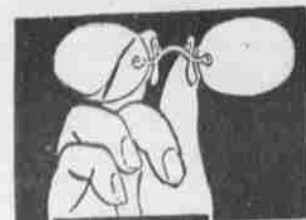

"If I accepted probation," she declared, "I would be admitting guilt. Before God I did not steal the money. For years I have washed other people's clothes and scrubbed their floors, so that my child might grow up to a fair, unsophisticated name. You have taken that from us, and I never will add to what you have done by admitting a guilt that is not mine, even to keep my freedom and my right to labor for my child."

Judge Conley refused to pronounce sentence, instructing the woman's attorney to investigate the case further.

## Was Gored to Death By a Bull

[UNITED PRESS LEASED WIRE.]  
Ellensburg, Wash., Dec. 2.—Arthur Gunison, a bridegroom of but a few weeks, is near death today as the result of being gored by a bull on the ranch of John Bieren near here. Gunison and Bieren were endeavoring, while on horseback, to drive the bull out of a corral, and the bull becoming enraged, attacked Gunison, throwing his horse and himself to the ground. Then the bull tossed the young man high in the air. Bieren finally succeeded in driving the bull off. No hope is held out for Gunison's recovery.

### PLEADS GUILTY TO CHARGE OF FAILING TO SUPPORT

Upon the complaint of his wife, Mrs. Jennie Teedman, Arnold Teedman was haled before County Judge Bushey this morning and charged with non-support. The plaintiff alleged that Teedman has for some time past failed to support or care for her in any manner.

After hearing the complaint read Teedman pleaded guilty to the charge. He asked the court to be merciful this time and give him an opportunity to make amends. Teedman admitted that he had not been supporting his wife as he should, but informed Judge Bushey that, if given another chance, he would do so.

On account of there being several other points in the case not entirely satisfactory to Deputy District Attorney Winslow, Teedman's case was postponed for final judgment until Wednesday morning. Mr. Winslow declared that the matter could bear further investigation, and commented upon the fact that even the complaint was not properly sworn to, inasmuch as it bore the signature of a notary not in the employ of the county clerk's office. Teedman was remanded to the custody of Sheriff Minto pending his final hearing.

## War Scare Increases in Belgium

[UNITED PRESS LEASED WIRE.]

Brussels, Dec. 2.—The war scare in Belgium has been increased by the action of France in making Maubeuge the stronghold near the Belgian frontier, a park for aeroplanes and dirigibles. The town will be surrounded by new forts equipped with disappearing guns. The government of Belgium intends to pass a law against espionage. The southern part of the country is infested with French officers, who, under the pretense of studying the history of battles on the old battlefields are thought to be preparing for an invasion of Belgium in the event of war with Germany. The army corps in the north of France, with headquarters at Lille, is looked upon as the potential invading force.

### John Got in Line.

At one of the election booths this morning, no matter which one, a man, tall, slender and dignified, and his wife, rather small, nervous and wide-awake, made their appearance. The little woman at once got in the line of about a dozen, waiting to get to a booth, and she, glancing around, saw her husband standing to one side. She tried to catch his eye, but failed, and her nervousness getting unbearable, she called out: "John! John! Why don't you get in line? Don't you know there is a big waiting to be done this morning?" And as the crowd smiled audibly, John got in line.
